## VOTE FOR ALY ON MARCH 23!

- [Log into the OMA Elections Webpage](#)
- Review candidate information and then log into BigPulse on the same page
- Locate the 'President-elect' category and rank Aly as your #1 choice on your ballot

### Enhancing our reliable foundation today.

*Our healthcare system is built on reliable foundation. But there are cracks in the foundation after years of under funding and reactive policies. We need to refocus health policy around the physician voice to repair the cracks.*

### Envisioning a better future for doctors.

*We can envision a better future for our sector. A future where equality and equity are entrenched within all of our work, where resilience and sustainability are part of our core culture, and where diversity and inclusion are not just check boxes.*

### Evolving the system for tomorrow.

*Our health system needs to move to where the world will be tomorrow, by evolving, improving, and innovating along the way. COVID-19 has taught us the value in being collaborative, adaptable and nimble. We need to balance innovation with improving care.*
